phs memory®

16GB Computer memory DDR4 for MSI All-in-One Pro 20EXTS 8GL-052XEU SO DIMM

	phs memory®		
	40,92 EUR plus VAT 48,70 EUR incl. VAT immediately available https://www.phs-memory.com Version: 28.08.2025 01:45		
	 Your benefits verified quality memory 5 years warranty Warranty details see last page 100% compatible free support on our hotline fast delivery 		

PHS-memory® - computer memory with 100% quality

- many years of IT competence
- Free support for optimal configuration and product selection
- High availability through professional warehouse management
- Fast delivery in throughout Europe
- Short response times and professional order processing due to full digitalization throughout the entire process with complete traceability
- Incoming goods inspection include checks of the DRAMs, PCBs and the programmed SPDs in order to exclude possible errors (Controlled BOM).
- PHS-memory® brand memories guarantee 100% compatibility to the specified system.
- PHS-memory® memories can be used together with existing memories in the device depends on to the configuration rules of the system.
- The "fallback option" in the SPD of PHS-memory® allows DRAMs with higher clock rates to be operated together with older memory modules with lower clock rates within the system.
- Products with unique serial number for service and warranty
- Pre-sales and after-sales support by technically trained personnel

Memory Specification

lemory size	16GB
lemory technology	DDR4
CC support	no
EDEC Norm	PC4-2400T-S
RAM Organization	1Gx8
ank	2Rx8
уре	SO DIMM
umber of pins	260 Pin DIMM
lemory data transfer rate	2400MHz @ CL17
oltage	1,2 Volt
peciality	-
oard dimensions	69,73 x 30,13 (LxB mm)
perating temperature	0° C - 85° C
torage temperature	-40° C - +95° C
oHS compliant	yes
ĸu	SP329811
AN	4063369928343
oltage peciality oard dimensions perating temperature torage temperature oHS compliant	1,2 Volt - 69,73 × 30,13 (LxB mm) 0° C - 85° C -40° C - +95° C yes SP329811

overRAMing maximize your RAM

Most systems - including the MSI All-in-One Pro 20EXTS 8GL-052XEU - can be upgraded with more memory than originally specified by the device manufacturer.

Therefore, our memory specialists continuously analyze new memory solutions in selected systems. Due to improved manufacturing technologies, new memories with higher performance and capacity will be tested for stability and functionality.

Then the new memory solutions are released for the respective systems. Use the benefits of larger computer memory capacity with the PHSmemory® overRAMing memory solutions.

https://www.phs-memory.com/-BOR

Note: The module specified in this datasheet is one of several possible configurations available under this part number.

Some details may differ from the specifications described here and the illustration, but have no negative influence on the functionality.

System Specifications

The memory is 100% compatible with this sytem:

System manufacturer	MSI
Device type	Desktop
Device family	All-in-One Pro
Device series	20EXTS 8GL Serie
Device name	All-in-One Pro 20EXTS 8GL-052XEU
Standard memory	4GB (1x4GB)
Maximum memory*	16GB / 8GB according to manufacturer
Number of memory sockets	1

* The specifications for the maximum memory upgrade may differ from those of the manufacturer MSI. Often the information given in the manual for the maximum memory upgrade is not up to date. New memory technologies, bios updates or newer software versions often allow the use of memory modules with a higher capacity than specified by the manufacturer with the same performance and stability.

Memory modules with our overRAMing-symbol are approved by us for maximum memory expansion.

Information on memory installation

- Turn off the system
- Remove the plug of the power supply unit (if connected)
- Remove the battery, according to the user manual of the system
- Always ground yourself before touching electronic components
- Protect the memory module from static voltages:
- Do not touch the gold pins of the memory module - Only touch the sides of the memory module
- Use a grounding strap and/or ESD glove if possible

General installation instructions are supplied by E-Mail.

Further memory options for MSI All-in-One Pro 20EXTS 8GL-052XEU

Size	SKU	Technology	Туре	Number of pins	Brand	Reference no.
8GB	SP329813	DDR4	SO DIMM	260 Pin DIMM	PHS-memory®	
16GB	SP329811	DDR4	SO DIMM	260 Pin DIMM	PHS-memory®	

PHS-memory® warranty

Every PHS-memory® is equipped with a 5-years-warranty of perfect operation. If the RAM module is defective or fails within 5 years of purchase when used properly, you will receive an appropriate RAM module free of charge. If a suitable memory module is no longer available, we will refund the purchase price.
