Your benefits

- ✓ verified quality memory
- ✓ 5 years warranty
Warranty details see last page
- ✓ 100% compatible
- ✓ free support on our hotline
- ✓ fast delivery

PHS-memory® - computer memory with 100% quality

- many years of IT competence
- Free support for optimal configuration and product selection
- High availability through professional warehouse management
- Fast delivery in throughout Europe
- Short response times and professional order processing due to full digitalization throughout the entire process with complete traceability
- Incoming goods inspection include checks of the DRAMs, PCBs and the programmed SPDs in order to exclude possible errors (Controlled BOM).
- PHS-memory® brand memories guarantee 100% compatibility to the specified system.
- PHS-memory® memories can be used together with existing memories in the device - depends on to the configuration rules of the system.
- The "fallback option" in the SPD of PHS-memory® allows DRAMs with higher clock rates to be operated together with older memory modules with lower clock rates within the system.
- Products with unique serial number for service and warranty
- Pre-sales and after-sales support by technically trained personnel

Memory Specification

Memory size	512MB
Memory technology	DDR2
ECC support	no
JEDEC Norm	PC2-5300S
DRAM Organization	64Mx16
Rank	1Rx16
Type	SO DIMM
Number of pins	200 Pin DIMM
Memory data transfer rate	667MHz @ CL5
Voltage	1,8 Volt
Speciality	-
Board dimensions	67,6 x 30 (LxB mm)
Operating temperature	0° C - 85° C
Storage temperature	-40° C - +95° C
RoHS compliant	Yes
SKU	SP217684
EAN	4055069857269

Note: The module specified in this datasheet is one of several possible configurations available under this part number.
Some details may differ from the specifications described here and the illustration, but have no negative influence on the functionality.

System Specifications

The memory is 100% compatible with this system:

System manufacturer	HP
Device type	Printer
Device family	LaserJet Enterprise
Device series	M720 Serie
Device name	LaserJet Enterprise MFP M725
Standard memory	1GB non removable
Maximum memory*	1,5GB
Number of memory sockets	1

* The specifications for the maximum memory upgrade may differ from those of the manufacturer HP. Often the information given in the manual for the maximum memory upgrade is not up to date. New memory technologies, bios updates or newer software versions often allow the use of memory modules with a higher capacity than specified by the manufacturer with the same performance and stability.

Information on memory allocation

Computer memory configuration - HP LaserJet Enterprise M725 MFP

Die memory können in beliebiger Kombination eingesetzt werden.

Ab Werk sind 1GB memory verbaut.

Dieser memory kann nicht entfernt werden.

Der printer kann maximal 1,5GB adressieren.

	Part Nr	max.Ram
LaserJet Enterprise M725 MFP		
M725dn	CF066A	1536MB
M725z+	CF069A	1536MB
M725f	CF067A	1536MB
M725z	CF068A	1536MB
M725dnm	L3U63A	1536MB
M725zm	L3U64A	1536MB

Information on memory installation

- Turn off the system
- Remove the plug of the power supply unit (if connected)
- Remove the battery, according to the user manual of the system
- Always ground yourself before touching electronic components
- Protect the memory module from static voltages:
 - Do not touch the gold pins of the memory module
 - Only touch the sides of the memory module

- Use a grounding strap and/or ESD glove if possible

General installation instructions are supplied by E-Mail.

Further memory options for HP LaserJet Enterprise MFP M725

Size	SKU	Technology	Type	Number of pins	Brand	Reference no.
512MB	SP217684	DDR2	SO DIMM	200 Pin DIMM	PHS-memory®	CF306A

PHS-memory® warranty

Every PHS-memory® is equipped with a 5-years-warranty of perfect operation. If the RAM module is defective or fails within 5 years of purchase when used properly, you will receive an appropriate RAM module free of charge. If a suitable memory module is no longer available, we will refund the purchase price.
